Mark Tallbrook
27 Pacific Valley
Big Sur, CA, 93920

Dear Mark:

I am responding to your request that I install batteries at the Pacific Valley School.

Before I can do that, we need to address safety concerns I have presented to the school on several occasions in the past, starting in October of 2000. I may not have emphasized strongly enough my concern about these problems. I really want to make it clear that these problems, if not resolved, can be a fire hazard. Attached is a copy of my report dated October 20, 2000 and a bid I prepared in December of 2003. Please review these and/or forward them to the person in charge of maintenance at Pacific Valley School.

Sincerely,

William Miller
